To Whom It May Concern:

I have known Janice Callant professionally for approximately 15 years when she owned and managed a different window cleaning operation and have always been impressed with her commitment to excellence and quick follow through on all concerns or challenges.

As a Senior Property Manager in the Commercial Real Estate industry for over 18 years, it is refreshing to work with someone like Janice who takes customer service very seriously and is steadfast in her approach of educating her clients about the service she provides. She is extremely knowledgeable about the law and local code requirements that are easy pitfalls for facility and property managers to miss in our day to day operations.

On several occasions, Janice has recommended a less expensive procedure of maintenance that is as effective and results in considerable cost savings to the project. She is wonderful to have on your team of vendors which is important to all facility and property managers. She also has referred other vendors that have been a great asset to me as well.

I continue to utilize Green Cleaning Services not only for the great customer service but I also bid the window cleaning service every year and find her cost of services to be very competitive.

I highly recommend Green Cleaning Services for all your window cleaning and pressure washing needs. Janice is a valuable asset in any property or facility managers' arsenal.

Sincerely,

TRANSWESTERN

Bobbie Purcell  
Senior Property Manager
